

# Claim Edit Prescriber Enrollment

---

March 7, 2022

The following informational message is displayed on all denied claims if the Ordering, Referring, and Prescribing (ORP) provider is not enrolled in Medi-Cal. This is a required Center for Medicare & Medicaid Services (CMS) standard. Medi-Cal Rx providers must be enrolled as a Medi-Cal-participating provider to provide services to Medi-Cal beneficiaries.

When the informational message displays on a claim, please review *all* error codes. Do not attribute the message as the sole reason for a claim denial.

**“INFORMATIONAL ONLY – Ordering/Referring/Prescribing NPI not enrolled or eligible for svc billed on date of svc. Future claims may deny when this edit is fully implemented by Medi-Cal Rx.”**

In the future, billed Medi-Cal Rx services may be denied if you are *not* enrolled as a Medi-Cal ORP provider. For enrollment assistance, use either the [Provider Application and Validation for Enrollment](#) (PAVE) Portal or the [Provider Enrollment Directory](#).
