

Diabetic Supplies: Update to the Minimum Quantity for FreeStyle Libre 3

October 14, 2022

Effective October 1, 2022, specific therapeutic and non-therapeutic Continuous Glucose Monitoring (CGM) Systems are now pharmacy-billed medical supply benefits through Medi-Cal Rx. The FreeStyle Libre 3 minimum dispensed quantity has been updated to "1." This change is retroactive to October 1, 2022. Providers can resubmit previously rejected or denied claims with a date of service on or after October 1, 2022, for this device.

Coverage will continue to be restricted to products on the [List of Covered Continuous Glucose Monitoring Systems](#), will require a prior authorization (PA) for reimbursement, and is subject to specific coverage criteria. The current *Transition Policy* remains in effect; no reinstatement date for CGM has been announced.

Product addition or inclusion on the [List of Covered Continuous Glucose Monitoring Systems](#) does not guarantee supply or individual specific coverage.

Contact Information

You can call the Medi-Cal Rx Customer Service Center (CSC) at 1-800-977-2273, which is available 24 hours a day, 7 days a week, 365 days per year.
