

Medi-Cal Rx

# Upcoming Transitions for Medi-Cal Rx Applications

February 1, 2024

## Background

In 2023, Prime Therapeutics acquired Magellan Rx, necessitating the migration of Medi-Cal Rx applications to Prime Therapeutics' platforms. As part of this migration effort, there will be a series of transitions for Medi-Cal Rx users who currently access Medi-Cal Rx applications.

**Note:** Individual applications have not been changed; migrations will only impact the path to access each application for which a user is registered.

## What Providers Need to Know

All impacted users will be notified in advance of the migration dates for each application; migration dates are scheduled for the first half of 2024. Information about each application migration will be sent to impacted users and will include:

- Key dates;
- Instructions for users who are required to take action prior to an application migration date; and
- Dates for informational meetings to learn more about migration activities and required user action.

Support services will be available throughout the migration process to assist users.
