# How to Address Reject Code 80 – Diagnosis Code Submitted Does Not Meet Drug Coverage Criteria

April 23, 2024

## Background

As announced in the [30-Day Countdown: Implementation of Reject Code 80](#) alert, **Reject Code 80 – Diagnosis Code Submitted Does Not Meet Drug Coverage Criteria** will be implemented on April 30, 2024, for members 22 years of age and older. The purpose of this alert is to provide pharmacy providers and prescribers with information regarding how to address Code I restrictions for treatment diagnosis or indication for use.

Members 21 years of age and younger will not be impacted at this time.

## What Pharmacy Providers and Prescribers Need to Know

Effective April 30, 2024, Medi-Cal Rx will implement claim utilization management (UM) edits for Code I diagnosis restriction (Reject Code 80) for members 22 years of age and older. If the Code I diagnosis requirement is not met, claims submitted to Medi-Cal Rx will deny with Reject Code 80 with the following supplemental message: *"Code I Restriction: requires a valid ICD-10 diagnosis code or Submission Clarification Code = 7."*

Prescription documentation requirements apply to Code I diagnosis restricted drugs. Prescribers and pharmacy providers must document the treatment diagnosis and keep that information readily available for auditing purposes.

Code I drugs are subject to the prescription documentation requirements in *California Code of Regulations (CCR), Title 22, Section 51476(c)*. Refer to CCR, Title 22, Section 51313.3(b).

# How to Identify Code I Diagnosis Restricted Drugs

Pharmacy providers and prescribers may identify Code I diagnosis restricted drugs and the Medi-Cal Rx accepted diagnosis by reviewing the following resources:

- Refer to the [Medi-Cal Rx Diagnosis Crosswalk](#) to identify accepted diagnosis or International Classification of Disease – 10th Revision (ICD-10) code(s) to meet the Code I diagnosis restriction.
- Refer to the Medi-Cal Rx Contract Drugs Lists (CDLs) to identify the drugs with Code I diagnosis restrictions by navigating to the [Contract Drugs & Covered Products Lists](#) page on the [Medi-Cal Rx Web Portal](#).

**Note:** Claims submitted to Medi-Cal Rx will not deny for Reject Code 80 if an accepted diagnosis meeting the Code I diagnosis restriction is found in member's Medi-Cal medical record.

## What Prescribers Need to Do

If the drug prescribed is impacted by a Code I diagnosis restriction, the prescriber should perform the following steps:

- Provide a diagnosis or ICD-10 code(s) with the prescription.
- Provide a diagnosis or ICD-10 code(s) communicated verbally to the pharmacy provider.

- » Prescribers are encouraged to provide multiple diagnoses, when medically appropriate, as applicable to the drug/product. This will assist the claim adjudication process.
- » For members newly diagnosed with a condition, there will be a delay in the diagnosis code being added to the member's medical record. Prescribers are encouraged to provide the diagnosis or ICD-10 code with the prescription.

- Submit a prior authorization (PA) request via an approved Medi-Cal Rx submission method establishing the Code I diagnosis restriction is met or establishing medical necessity for an alternate diagnosis.

## What Pharmacy Providers Need to Do

If the drug is impacted by a Code I diagnosis restriction and the member does not have an approved PA, or if the accepted diagnosis is not in the member's medical record, the claim will deny with Reject Code 80. Pharmacy providers may gather diagnosis information by speaking

with the member, prescriber, or other source with knowledge of the diagnosis, when applicable. Pharmacy providers should consider the following to address Reject Code 80:

- If the prescription is submitted without a diagnosis or ICD-10 code(s), pharmacy providers are encouraged to speak with a reliable source with knowledge of the diagnosis or ICD-10 code(s) to verify the diagnosis restriction is met.
  - If the ICD-10 code(s) are provided by the prescriber or prescriber's office, resubmit the claim with the ICD-10 code(s).  
**Note:** Medi-Cal Rx will accept up to five ICD-10 code(s) upon claim adjudication.
  - If the diagnosis is provided by the prescriber, member, or other reliable source, review the *Medi-Cal Rx Diagnosis Crosswalk* to identify accepted ICD-10 code(s) and resubmit the claim with the ICD-10 code(s).  
**Note:** The dispensing pharmacy provider may identify the appropriate ICD-10 code(s) to submit on the claims within the scope of their professional discretion.
  - If the diagnosis is provided, meets the requirement, and accepted ICD-10 code(s) cannot be identified, the dispensing pharmacy provider may attest the Code I diagnosis restriction is met and resubmit the claim using submission clarification code (SCC) 7 – Medically Necessary.  
**Note:** SCC 7 should only be used to communicate the restriction has been met.
- If the prescription is submitted without a diagnosis or ICD-10 code(s) and the pharmacy providers cannot verify the diagnosis or ICD-10 code(s), initiate a PA request to the prescriber seeking this information. Once the information is received, resubmit the claim and/or submit a PA request.
- If the diagnosis or ICD-10(s) are available and do not meet the Code I diagnosis restriction, submit a PA request via an approved Medi-Cal Rx submission method establishing medical necessity for an alternate diagnosis.

## PA Requests

Pharmacy providers and prescribers may submit a PA request using one of the following approved Medi-Cal Rx submission methods:

- [CoverMyMeds®](#)
- [Medi-Cal Rx Secured Provider Portal](#)
- NCPDP P4 Transaction
- Fax
- U.S. Mail

**Note:** Refer to the *Prior Authorization Request Overview, Request Methods, and Adjudication* section in the [Medi-Cal Rx Provider Manual](#) for information on the methods available to submit a PA request.
